

JOHNNY KILE  
ANNOUNCES HIS INTENTIONS TO SEEK  
COUNCIL PLACE 5 IN LEEDS MUNICIPAL ELECTIONS

My name is Johnny Kile. My family has lived in Leeds for over 82 years with my mother, uncles, cousins, wife and five children and I attending Leeds schools. My ties to this community span three generations. This City is special to me and my family and the life long memories and friends cannot be replaced or changed. There is no experience that can compare to growing up and living in Leeds.

I have decided to enter the political arena as I see a need for an individual to stand for the wishes of the people. To often the voice of the people goes unheard because of the good ole boy politics that protect special interests and individuals. I see most of the districts lacking in local funding and resources committed to provide basic services. I am not a politician, seeking to increase my position; I am a statesman set about the business of representing and advocating for the people. As such I am accountable to the citizens, not special interest groups or individuals.

I have 35 years experience working in municipal government. I am responsible for maintaining a department, preparing a budget and operating within those constraints. I understand the operation of municipal government and will apply that knowledge to making Leeds a better place.

If elected, I pledge to you that no person, entity, or corporation will influence my decision making for the City of Leeds. I further pledge to be accountable to you the voter, representing your voice, making our city a better place and helping it grow into its place as a model city for quality of living, business and commerce, and infrastructure.

Should you have any questions feel free to contact me at my residence at 699-8624.
